

## VOLUME CONTENTS

### *Volume 268*

#### Nos. 1-3

#### Special Issue:

ASTRONOMICAL ORIGINS OF LIFE  
Steps Towards Panspermia

#### Guest Editors:

F. HOYLE and N.C. WICKRAMASINGHE

#### No. 4

C. KIM and N.-K. PARK / Time-Series Monitoring of Variable Stars in the Field of NGC7789	387-396
A.-Y. ZHOU, J.-N. FU and S.-Y. JIANG / The Duplicity of Large Amplitude SX Phoenixis Star CY Aquarii	397-405
M. JANG and J. MUKHERJEE / GSC 45401533: Observations and Analysis of a Newly Discovered Binary Star	407-414
Y.W. KANG and K.D. OH / Evidence of Chromospheric Activity on HR 1099	415-424
A. DAS and A. BANERJEE / Five Dimensional Magnetic Universe	425-431
A. LEVINSON / Effect of Orientation of the Variability Pattern of Gamma-Ray Sources	433-441
A.A. MAMUN / Arbitrary Amplitude Dust-Acoustic Solitary Structures in a Three-Component Dusty Plasma	443-454
S. LI and Y. DUAN / The Bifurcation of the Topological Structure in the Sunspot's Electric Topological Current with Locally Gauge-Invariant Maxwell-Chern-Simons Term	455-468
F. SANTORO, R. AQUILANO and D. IBACETA / Contraction of Radiating Shell in Classical and Post-Newtonian Approximation	469-474
C. GRIMANI / The Role of Extragalactic Antimatter in Cosmic-Ray Observations near Earth	475-481
X. ZHU / Examination of the Association between Quasars and Abell Clusters on All Sky	483-495
Volume Contents	497
The Kluwer LaTeX Style File	499-500
